Summer 2019

“

The teacher is very dedicated. The class was intensive, but not overwhelming.

Even though there was plenty of new information, it was clear and easy to follow.

My trainer was very good in maintaining continuous contact with the students, and thus no time is wasted during the class.

Also, great atmosphere!

French4Life in Brussels

“

I chose to learn French at CLL because one of my friends studied there and was very happy. I've been attending CLL classes for 5 weeks and I know that I made a really good decision!

First of all, because there is a nice, warm atmosphere between students and teachers. The teachers are competent and very caring about our needs.

Small groups and various learning methods are used to help us improve quickly. I had already had another experience, very different from this one, and if in the future I need to further improve my French, I would definitely come back to CLL in Brussels.

“

I owe my passion for the French language to CLL.

Thanks to them, I want to continue to improve my knowledge of French as much as I can. Moreover, the time I spent in Louvain-la-Neuve was marvellous.

I felt at home in the town and the people I met from around the world, have become my best friends. What could be better? I can talk with them in French, because “vouloir c’est pouvoir”.

Therefore next summer, I have promised myself that I’m going to return!

FRENCH⁴STUDY

Preparing you for your course(s) at a French-speaking university

THE SUCCESS OF OUR FRENCH-4-STUDY PROGRAMME IS DOWN TO THREE THINGS - IT IS:

1. Targeted - the content is directly linked to your studies, research or work.

3. Culture and activity based – different activities are organised, giving you the opportunity to discover the country and the people.

WHO IS THIS COURSE FOR?

This intensive French program is designed for students who are preparing to spend several months at a French-speaking Belgian university.

The programme content is adapted to each person's particular needs and target objectives.

DURATION

The Programme takes place in July and August. 51 hours of language learning and activities are given over a two-week period.

You can take several consecutive sessions in order to extend your learning and be fully prepared for your university course.

PLACEMENT TEST

After registration, you receive a link to an online placement test so that we can put you in a suitable group on the very first day. Once you start, you may be moved to a different level if you and your teacher feel it appropriate.

LESSONS

The main objective is for you to become both independent and successful in your academic activities.

Each group of learners is accompanied by two native language teachers who specialise in teaching French as a foreign language - a real plus for helping you get used to different accents and teaching styles.

The course covers all skills – speaking, listening and reading and writing, with special focus being on the type of activities you are expected to do at university: interacting with others, asking for specific information, making presentations, writing summaries, reports, etc.

All course content is adapted to the level and specific needs of each group.

CULTURAL VISIT

How do you choose the best French programme for **your child**?

Learning French is important for your child, but it can be difficult knowing which option to choose. At CLL, we understand that each young person learns at a different pace and that some types of course may suit them more than others.

This is why we offer three programmes, all different in their overall concept and intensity, but identical in their desire to offer your child the best possible French language learning experience.

FRENCH & FUN

in Belgium

Louvain-la-Neuve is a university town that houses the famous university, UCLouvain. Louvain-la-Neuve is a pedestrianised city where you can enjoy just strolling or wandering around along the small streets. All activities and facilities are within easy reach.

In summer, the city gives way to residents, families and exchange students, creating a unique atmosphere where you can immerse yourself in the French language and culture.

COURSES

15H FRENCH + 15H ACTIVITIES

One full week: we offer TEENS the opportunity to progress in French for five half-days and discover a new activity (provided by professionals specialised in the subject taught) for the other five half-days.

French courses focus on improving oral skills (speaking and listening).
Vocabulary and grammar

are developed through interactive exercises.

ACTIVITIES

We organise a range of after-school activities: shopping, swimming, cinema, theatre, visit to the Hergé Museum, discovery tour of the university campus, cycling, rollerblading, etc.

Several excursions are possible during the stay, such as a visit to the ruins of Villers-la-Ville and/or a visit to the Walibi amusement park or Aventure Parc (an outdoor adventure park with rope and tree climbing activities).

HOUSING

Accommodation is in a youth hostel - shared room, shared en suite bathrooms.
