Study at the LSM

Responsible decision makers

No need to wait until tomorrow to impact the world. Join LSM today!

At the LSM, we form responsible leaders who care about people and places, about excellence and ethics.

Programmes overview *

A top of the range programme to master the managerial and social challenges

In order to inspire you, as a future decision maker, we have upscaled the programmes, the teaching and the methods to meet current management challenges.

The LSM is deeply committed to integrating ethics, social responsibility and sustainability in all its activities. This is a core value which we live, teach and promote.

LSM Master's 120 credits **In Business Engineering** and **In Management** now include exciting courses that prepare you to play your role as an inspiring and innovative leader. They consist of 4 elements :

<p>CORE TRAINING (20 ECTS)</p> <p><i>Excellence and Ethics in Management... in the 21st century (4 core courses)</i></p> <p>→ Managing in a responsible way through uncertain and complex times (digital & green transition)</p>	<p>SPECIALIZED TRAINING (45 ECTS)</p> <p><i>In-depth education in chosen fields</i></p> <p>→ Major (5 courses dedicated to a subject or topic)</p> <p>→ Master thesis (autonomous, critical, and rigorous research; 20 ECTS)</p>
<p>BUSINESS EXPOSURE (25 ECTS)</p> <p><i>Acquaintance with the practical business environment</i></p> <p>→ Group project (with professors & practitioners)</p> <p>→ Internship (minimum 60 consecutive days)</p> <p>→ Seminars (Managerial competencies & issues)</p>	<p>INTERNATIONAL EXPOSURE (30 ECTS)</p> <p><i>Managing in a globalized world</i></p> <p>→ Exchange semester abroad</p> <p>→ OR LSM courses with international focus (languages, cross-cultural competencies)</p>

Continous work and active pedagogy

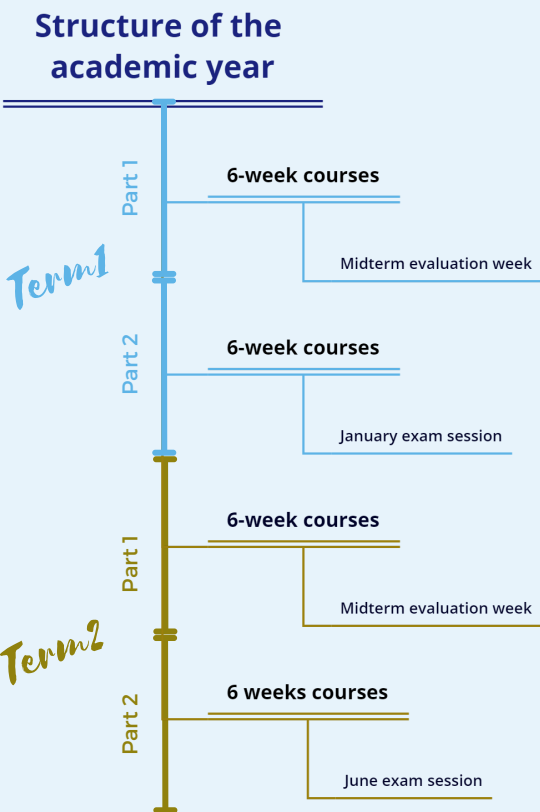

At the LSM we believe in

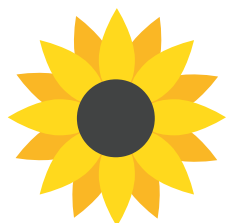

- active teaching :
like inverted classes, projects, skills seminars, business games, internship, ...
- continuous work
- focus on various subjects

That is why we have organized the academic year in:

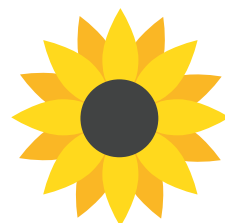

- blocks of 6 weeks of intensive courses
- followed by an evaluation week

Don't delay, we'll start right away !

Are you rather a LSM Business Engineer or Manager ?

Take the test

Master's in Business Engineering

Master's in Management
